

Kaltenbach T, Garces JM, Gattoliat J-L <i>Philibaetis</i> gen. nov., a new genus from the Philippines (Ephemeroptera, Baetidae)	1
Graf S, Willsch M, Ohl M Comparative morphology of the musculature of the sting apparatus in <i>Ampulex compressa</i> (Hymenoptera, Ampulicidae) and <i>Sceliphron destillatorium</i> (Hymenoptera, Sphecidae)	21
Fujie S, Japoshvili G, Fernandez-Triana J Review of the world species of <i>Paroplitis</i> Mason, 1981 (Hymenoptera, Braconidae, Microgastrinae), with description of three new species	33
Hemp C, Massa B Biogeographical and evolutionary aspects of a Guineo-Congolian bushcricket tribe: Revision of the genera <i>Cestromoecha</i> Karsch, 1893 and <i>Poreuomena</i> Brunner von Wattenwyl, 1878, with the description of new species (Orthoptera, Tettigoniidae, Phaneropterinae)	45
Skartveit J A new fossil species of the genus <i>Biblio</i> , with an update on bibionid flies from Baltic and Rovno amber (Diptera, Bibionidae)	81
Zenz K, Zettel H, Kuhlmann M, Krenn HW Morphology, pollen preferences and DNA-barcoding of five Austrian species in the <i>Colletes succinctus</i> group (Hymenoptera, Apidae)	101
Mey W, Malicky H Records and descriptions of caddisflies from Natma Taung National Park and adjacent localities in the Chin Hills of Myanmar (Insecta, Trichoptera)	139
Stroiński A <i>Kazukuru</i> gen. nov. – a new Ricaniidae planthopper from Solomon Islands (Hemiptera, Fulgoromorpha)	165
Mtow S, Tsutsumi T First instar nymphs of two peltoperlid stoneflies (Insecta, Plecoptera, Peltoperlidae)	179
Yang Z, Jia F, Jiang L, Guo Q Four new species of <i>Agraphydrus</i> Régimbart, 1903 with additional faunistic record from China (Coleoptera, Hydrophilidae, Acidocerinae)	189
Schmidt J, Scholz S, Maddison DR <i>Balticeler kerneggeri</i> gen. nov., sp. nov., an enigmatic Baltic amber fossil of the ground beetle subfamily Trechinae (Coleoptera, Carabidae)	207

Deutsche Entomologische Zeitschrift

An International Journal of Systematic Entomology

Instructions for authors

Scope

Deutsche Entomologische Zeitschrift is an international peer-reviewed journal of systematic entomology. It publishes original research papers in English on systematics, taxonomy, phylogeny, comparative and functional morphology, as well as biogeography of insects. Other arthropods are only considered where of relevance to the biology of insects. The geographical scope of the journal is worldwide. Priority is given to revisional work and comprehensive studies of phylogenetic, biological or zoogeographical relevance. The journal also welcomes review articles pertaining to systematics and biology of insects.

Authors and submission

- **Conflicts of interest:** Authors must disclose relevant competing interests, both financial and personal.
- **Ownership:** Authors must declare that the submitted work is their own and that copyright has not been breached in seeking its publication.
- **Originality:** Authors must declare that the submitted work has not previously been published, and is not being considered for publication elsewhere.

Language and style

- The language of publication is English. There is no general limitation of the length of manuscripts, but please contact the editor before submitting papers exceeding 30 printed pages (approximately 60 manuscript pages including figures).
- Manuscripts should be written in a clear, straightforward style and must not have been published or submitted elsewhere.
- The text should be 12 pt, double-spaced, one-sided, left justified and with a margin of at least 3 cm.
- Use a standard typeface, e.g. Times New Roman as little formatted as possible (without tabulators, several blank spaces, etc.). Avoid footnotes.
- Divide the text into sections using headlines and subheadlines. Do not number the headlines. Inline headers should be set in italics and followed by a full stop.
- The names of genera and species must be in italics.
- Taxonomic descriptions must comply with the rules of the 4th edition of the ICZN (see <http://www.iczn.org/>).
- Enter the page number on every page.
- Submit figures with a minimum resolution of 300 dpi.
- The preferred file formats are PSD (Photoshop) and TIFF for colour and grayscale illustrations, and EPS for vector graphics.
- JPG files are only accepted in high resolution.

General manuscript structure

If appropriate, the manuscript should be structured using headlines and sub-headlines, but without numbering, according to the following sections:

- Title page
- Abstract
- Introduction
- Materials and Methods
- Results
- Discussion
- Acknowledgements
- References
- Tables with captions
- Figure captions

The publication process

Peer reviewing

Manuscripts are subject to peer review. All manuscripts submitted will be reviewed by at least two experts. Authors are welcome to make suggestions for competent reviewers.

Proofs

Prior to publication of your manuscript you will receive proofs in PDF format. Please correct and return the proofs within two weeks to the editorial office.

We recommend using the standard proofreading marks or – in the case of a few corrections – using page and line numbers.

Do not change the contents of your article. Corrections extending beyond production errors will be carried out at the expense of the author.

The editorial office reserves the right to publish your article with only the editor's corrections, if your corrections do not reach us in time.

Publishing

The journal is published in print and online. It is accessible in open access at Pensoft: <http://dez.pensoft.net>

COPE Membership

This journal endorses the COPE (Committee on Publication Ethics) guidelines and will pursue cases of suspected research and publication misconduct (e.g. falsification, unethical experimentation, plagiarism, inappropriate image manipulation, redundant publication). For further information about COPE, please see the website for COPE at <http://www.publicationethics.org.uk>
